

Levi Mackay

Computer Science Student — Software Development, Computer Vision & Data Engineering

Rexburg, ID | levibmackay@gmail.com | 208-284-4004 | [linkedin.com/in/levi-mackay-217380396](https://www.linkedin.com/in/levi-mackay-217380396) | github.com/levibmackay

SUMMARY

Computer Science student at BYU–Idaho focused on software engineering, computer vision, and data systems. Built real-time systems and structured data platforms, including a biomechanical feedback tool using OpenCV/MediaPipe and a SQL-based sports analytics platform. Currently developing software products through BYU–Idaho's Sandbox startup incubator. Seeking a software engineering internship.

EXPERIENCE

Sandbox — BYU–Idaho Startup Incubator

Rexburg, ID

Start-up Founder / Software Developer

May 2026 – Present

- Selected for BYU–Idaho's Sandbox program, a startup incubator where students design, build, and launch companies
- Design and develop software products as part of a student-led startup team in a fast-paced, cross-functional environment

Brigham Young University — Idaho

Rexburg, ID

Computer Science Teaching Assistant

Apr 2026 – Present

- Mentor students in programming fundamentals and debugging strategies; evaluate coding assignments with constructive feedback
- Troubleshoot student code and coach algorithmic thinking through one-on-one sessions

Brigham Young University — Idaho

Rexburg, ID

CSE Student Employability & Outreach Assistant

Apr 2026 – Present

- Collaborate with CS faculty on initiatives to improve student employability and internship readiness
- Promote internships, employer visits, and technical workshops; analyze engagement metrics to improve reach

SafeStreets

Rexburg, ID

Dealer Operations / IT Specialist

Mar 2025 – Aug 2025

- Managed data entry, account updates, and system permissions across dealer accounts
- Resolved account discrepancies and streamlined workflows to improve dealer efficiency

PROJECTS

SwingOS

Real-time computer vision system using OpenCV and MediaPipe to deliver biomechanical feedback on athletic swing mechanics.

Baseball Analytics Platform

Sports analytics platform built with SQL and relational database design for structured performance data.

EDUCATION

Brigham Young University — Idaho

Rexburg, ID

B.S., Computer Science

Sep 2024 – Dec 2027 (Expected)

SKILLS

Git, GitHub Pages, Python, SQL & Relational Database Design, OpenCV, MediaPipe, HTML/CSS
